NYSTEC Supports Nelson Preservation Associates' Old Drovers Tavern with \$1000 Donation Toward Paint Project

October 20, 2021

NYSTEC, a nonprofit technology consulting company established in 1996 to advise organizations, agencies, institutions, and businesses how to implement and manage technology, has given a \$1,000 charitable donation to the Nelson Preservation Associates (NPA) toward its paint restoration project at the Old Drovers Tavern in Nelson, NY. NYSTEC's donation (see www.nystec.com) will be used in conjunction with additional matching grant awards for historic paint analysis, paint removal, and paint preparation of this iconic community landmark.

The NPA is in the process of listing the property on the National Register of Historic Places and securing grants to build a two-story English barn to replace the auction barn which will house studio apartments and renovate the existing building to its roots as a Drovers Tavern. For more information, visit www.olddrovertavern.com or www.facebook.com/olddrovertavernatnelson/.

Thanks to NYSTEC for its outstanding community support of this revitalization endeavor!
